

Canadian IT Consulting powerhouse TekAnAid joins Mia-Platform Partner Network

Milan, 15 February 2024 - Mia-Platform, an Independent Software Vendor (ISV) delivering the leading Digital Platform Builder worldwide, and **TeKanAid Solutions Inc.**, a prominent IT training and consulting powerhouse, proudly announce their strategic partnership aimed at driving innovation and excellence in the **DevOps and Platform Engineering** landscape. This collaboration marks a significant milestone for both companies as they join forces to deliver cutting-edge solutions and educational resources to their clients and learners in the **Canadian and US markets**.

"As TeKanAid Solutions Inc. embarks on this exciting partnership with Mia-Platform, we're thrilled about the transformative impact it will have on both our consulting and training arms. In consulting, this collaboration enables us to bring Mia-Platform's revolutionary microservices technology to our clients, enhancing our ability to offer sophisticated, scalable DevOps solutions" comments **Sam Gabrail, President at TeKanAid Solutions Inc.** "For TeKanAid Academy, this partnership is a gateway to integrating cutting-edge practices into our educational content, enriching our hands-on training modules with the latest industry advancements. This synergy between TeKanAid Solutions Inc. and Mia-Platform represents a holistic enhancement of our services, ensuring that we provide top-tier consulting advice and education, keeping both our clients and learners at the forefront of DevOps innovation."

In today's rapidly evolving digital landscape, DevOps and Platform Engineering have emerged as crucial paradigms for companies striving to achieve agility, efficiency, and innovation in their software development and deployment processes. By aligning DevOps principles with Platform Engineering practices, companies can create robust, scalable,

and resilient platforms that accelerate innovation, enhance developer productivity, and deliver exceptional digital experiences to end-users.

"We are thrilled to embark on this collaborative journey with TeKanAid Solutions Inc.," says **Francesco Soncini, Head of Alliances at Mia-Platform**. "This partnership represents a fusion of expertise and innovation that will undoubtedly benefit our clients in the Canadian and US markets, propelling them towards success thanks to the synergy of DevOps and Platform Engineering practices. This integration fosters agility, scalability, and reliability, empowering organizations to adapt quickly to changing market demands and drive sustainable growth in the digital era".

Why DevOps and Platform Engineering Matter Now

In today's fast-paced digital world, businesses need to adapt quickly. This partnership ensures that organizations in Canada and the USA have access to the best tools and knowledge to stay ahead.

ABOUT TEKANAIID

"TeKanAid Solutions Inc., led by industry expert Sam Gabrail, operates with dual expertise as an IT training and consulting powerhouse in the DevOps and Platform Engineering realms. Our consulting arm is dedicated to delivering top-tier DevOps solutions, guiding organizations through complex technological landscapes with ease and efficiency. Simultaneously, our training division, TeKanAid Academy, offers a rich array of courses that embody our belief in hands-on learning. Our resources, including a comprehensive blog at <https://tekanaid.com/posts>, combine theory with practical demos, ensuring a robust learning experience. Check out our courses at <https://tekanaid.com/courses> for an immersive and interactive educational journey. At TeKanAid Solutions Inc., we blend our consulting acumen with our educational expertise to empower professionals and organizations alike in navigating and mastering the world of modern technology."

ABOUT MIA-PLATFORM

Mia-Platform is an Independent Software Vendor (ISV) that delivers the leading **Digital Platform Builder** worldwide for the end-to-end creation of cloud-native digital platforms.

Its powerful software suite with full DevOps Lifecycle Management provides a unique Console to simplify the development and operations of cloud-native applications based on APIs, Microservices, Fast Data, and DevOps, and to incrementally build a company's Digital Platform.

Mia-Platform enables a smoother **Developer Experience** for Cloud-Native Application Development, thanks to the combination of its **Internal Developer Platform** (Mia-Platform Console) and **Service Catalog** (Mia-Platform Marketplace).

The platform is thought to support companies in their adoption path of **Platform Engineering** and **Composable Architecture** paradigms.

Mia-Platform is one of the fastest-growing tech companies in Europe, and has been mentioned for two years in a row among the top 10 Italian tech companies in the "FT 1.000: Europe's Fastest Growing Companies" ranking by The Financial Times.
