

Mia-Platform Wins 2024 Digital Innovator Award from Intellyx

Amstelveen, Netherlands, June 4, 2024 - Intellyx, now celebrating 10 years of thought leadership and analysis dedicated to digital transformation, announced that Mia-Platform has won the 2024 Intellyx Digital Innovator Award.

"We are honored to receive the 2024 Intellyx Digital Innovator Award," said **Federico Soncini, CEO at Mia-Platform**. "This recognition underscores our commitment to driving digital transformation and innovation within the enterprise IT landscape. We remain dedicated to delivering cutting-edge solutions that empower our clients to achieve their digital goals."

As an industry analyst firm that focuses on enterprise digital transformation and the leading edge vendors that are driving it, Intellyx interacts with numerous innovators in the enterprise IT marketplace.

To honor these trailblazing firms, Intellyx's 2024 Intellyx Digital Innovator Awards puts a spotlight on vendors worth watching.

Intellyx bestows this award upon vendors who make it through Intellyx's rigorous briefing selection process and deliver a successful briefing.

"At Intellyx, we get dozens of PR pitches each day from a wide range of vendors," said **Jason Bloomberg, President of Intellyx**. "We will only set up briefings with the most disruptive and innovative firms in their space. That's why it made sense for us to call out the companies that made the cut."

For more details on the award and to see other winning vendors in this group, visit the [2024 Intellyx Digital Innovator awards page](#).

ABOUT MIA-PLATFORM

Mia-Platform is the Independent Software Vendor (ISV) providing one of the first Digital Platform Builders worldwide for the end-to-end creation of cloud-native digital platforms.

Mia-Platform enables a frictionless Developer Experience for cloud-native application development teams by combining cutting-edge technologies that support companies in their journey to adopt Platform Engineering, Data Fabric, and Composability paradigms.

Mia-Platform is one of the fastest-growing technology companies in Europe, and has been mentioned for two consecutive years among the top 10 Italian technology companies in the Financial Times' "FT 1,000: Europe's Fastest Growing Companies" ranking.
